

ski, ride, jib, film, edit, watch

Art 132AX: Digital Video

* introduces students to the basic principles and practices of electronic video creation and production using Final Cut Express

* covers using both still images and video footage to create digital videos

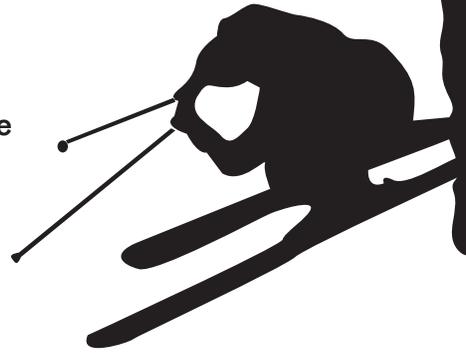

* covers production techniques including importing and managing clips, editing source clips, non-linear editing techniques and effects, developing titles, incorporating sound, and rendering for output

* students will work as a production team to film, import, design, and edit winter related movies

* students will have access to Canon DV cameras and professional quality editing software and hardware on the Mac

* covers creating a DVD and making professional quality movies from planning, editing, and filming all with aesthetics and entertainment in mind

* encourages you to get out there and get some

Pray for Powder

Art 132AX: Digital Video
